Corrected LIME vs SHAP and Integrated Gradients vs the FIRST10 position baseline (in-corpus family means; black ticks = random baseline)
FIRST10 (hatched) is the void arm relabelled: the document's first 10 word tokens, not LIME
comprehensiveness@10 (faithfulness)
stability (top-10 Jaccard)
plausibility@10 (cue-hit proxy)
LIME (corrected)
SHAP
IG
FIRST10 (void arm)
tfidf
